BRUSTOR B24 Awning

Thanks to the development of the **B25** and **B27** awning and the resulting expertise, Brustor created the B24 awning. A timeless design, which fully matches any style. The folding arm awning has an elegant finish with aluminum side plates without visible screws and therefore blends with any architectural style. This product is available in an Elite and a Prestige version. All our awnings are very strong, but the one with Prestige arms is the front-runner in terms of wind resistance. In addition, our folding arm awnings are 100% Belgian and produced from durable aluminum, weather-resistant parts and high-quality fabrics.

- ▣ Fits every architectural style
- ▣ No visible screws
- ▣ Fully in aluminum

BRUSTOR B25 Awning

The Brustor B25 is the absolute favourite and the best-selling folding arm awning in our range of awnings. Did you know that this product was also our very first awning? With this product, Brustor was a pioneer in the sun protection market. The retractable awning was and still is very innovative in terms of technicality and usability. The B25 has a completely closed and very compact cassette with maximum possibilities in terms of dimensions. Even after twenty years, it is still our bestseller. It has often been copied, but never matched.

- /// Compact housing with many possibilities
- /// Timeless design
- /// Bestseller

MUST HAVE!

BRUSTOR B25 Valance Awning

The favourite from our range of awnings is also available with a roll-up motorized valance up to 1.5 meters. The valance is a great added value for homes with a southwest orientation. Thanks to the extra sun protection screen on the front of the awning, you will never again suffer from low sun and in addition, the valance creates extra privacy. The contact with the garden is maintained, because the screen does not block your view to the outside. Last but not least, the valance disappears discreetly in the awning's lead rail if you do not wish to use it.

- ▨ Ideal for a low sun
- ▨ Fully closed housing
- ▨ Extra privacy guaranteed

BRUSTOR B27 Awning

The Brustor B27 awning is inspired by the successful B25 series, but it has been adapted to the needs of modern residential construction. The folding arm awning boasts an architectural, sleek design and can be integrated into your facade if you like. This sun protection product is also the favourite of countless architects. The B27 has a completely closed housing, protecting the parts perfectly against severe weather conditions such as wind and rain. Moreover, this product is available in three versions: Standard, Elite and Prestige. The difference in these versions lies in the wind resistance and sturdiness. All our retractable awnings are Belgian design and manufactured in Belgium. Each and every one of them are products, which we ourselves are very proud of and which you will undoubtedly enjoy for years to come. Choose from a wide range of more than 100 fabrics and all **RAL colours**.

- ▨ Architectural design
- ▨ Ideal for modern homes
- ▨ Can be integrated in the facade

BRUSTOR B35 Awning

The B35 folding arm awning is available in various types. From an open to semi-open or closed housing and as an Elite or Prestige version. The reinforced steel support tube allows a projection of four meters and offers extra solidity. Thanks to the arms with four steel cables, this product is extra stable and windproof, ideal for catering applications. In addition, the retractable awning is very user-friendly and can be produced in one single piece up to 15 meters wide. As an alternative for the five standard colours, you can choose from 200 optional RAL colours (at an additional cost) and hundreds of different high-quality acrylic fabrics. Except for more convenience, these awnings also create a pleasant place to be. Add extra cosiness thanks to the optional LED lighting and patio heating.

- ▨ Sturdy awning with a projection up to 4m
- ▨ Maximum width of 15m
- ▨ Ideal for large terraces

BRUSTOR B38 Awning

The B38 retractable awning is available in two versions, Elite and Prestige, and it ensures maximum shade thanks to the roll-up valance. The motorized valance is an extra fabric on the front of the folding arm awning, which offers extra privacy and protection against low sun. The perfect solution for homes with a southwest orientation. The valance blocks disturbing sunlight and views of the neighbours but still provides a full view of the garden. Moreover, the valance is completely stored away, so that it is not visible when not in use. And how about optional LED lighting and patio heating to enjoy your awning until late in the evening?

- ▨ Roll-up fabric in the lead rail against low sun
- ▨ Maximum dimension 6m by 3.5 m
- ▨ Innovative design

BRUSTOR B50 (XL) Awning

The Brustor B50XL is the big brother of the compact B50 model, but with an extra strong cassette and an optional LED strip in the housing and on the arms. The B50 awnings have an oval and compact design. For an optimal protection of the components, the awnings are equipped with a fully closed cassette. This way, the parts and fabric look like new for longer, regardless of the weather conditions. The B50(XL) awning can be mounted to the wall or ceiling very easily thanks to two narrow supports and therefore, it is the perfect solution for mounting on a covered terrace. Our retractable awnings are also provided with a high-quality acrylic fabric. Sustainability is an asset of these acrylic fabrics!

- ❖ Extra stevige kast
- ❖ Optionele ledverlichting in kast
- ❖ Ideaal voor appartementen

BRUSTOR B50 S Awning

Are you looking for the perfect shade on your terrace as well as the most optimal incidence of light and heat indoors? Then an awning is definitely a good idea. The B50 S is robust, yet keeps a sleek and elegant design. It's the latest addition to our awning range.

The B50 S is the little brother of the B50 XL. The B50 awnings have an oval and compact design. For optimal protection of the components, there is a completely closed housing. This way, both the components and the fabric remain in their original state for a very long time – no matter what the weather conditions. Thanks to its robust housing, the B50 S can be up to 5.5 m wide and has a maximum projection of 3 m. The B50 S can be very easily mounted on the wall or ceiling with only two supports, which is ideal for apartments.

- ▨ Extra stevige kast
- ▨ Optionele ledverlichting in kast
- ▨ Ideaal voor appartementen

BRUSTOR Twinstor

The Brustor Twinstor creates shadow wherever you prefer: with two ground anchors or freestanding galvanised steel flowerboxes, this autonomous awning is anchored in the garden or on the terrace without attachment to an existing wall or porch. The fabric and the mechanical parts are protected in an optimal way thanks to the two fully enclosed cassette casings. The arms are electrically controlled with a remote control. LED lighting and a patio heater operated by a remote control are convenient when you want to enjoy your Twinstor on cooler evenings.

- /// Autonomous awning
- /// The eye-catcher of every terrace
- /// Shadow surface up to 42 m²
