BRUSTOR B128 Pergola with retractable fabric roof

Combine the advantages of an awning with those of a patio cover

The Brustor B128 pergola is a very versatile sun protection product, very popular because of its minimalist design and the many customization options.

Its sophisticated design guarantees a panoramic view of the garden and ensures sufficient sunlight in your home. The B128 is attached to the façade of your house, but can be rolled up electrically thanks to the durable ZIP screen technology. This keeps the fabric tightly stretched in the side rails, and this year after year. With the B128, you truly have the best of both worlds! What's more? The elegant poles ensure that the pergola gets absorbed in the architecture of your house.

- Minimalistic design
- Combination of an awning and a patio cover
- Smooth drainage of rainwater through the poles

BRUSTOR B128 XL Pergola with retractable fabric roof

B128 XL combines the best of two worlds: a **pergola with built-in screens** that completely disappear into the structure. This way, you can enjoy **the advantages of an awning** in combination with **the advantages of a patio roof**. The B128 XL is always attached to the house. The fabric is rolled up electrically thanks to the durable ZIP screen technology and remains tightly stretched, year after year.

- /// Cover large areas
- /// Integrated water drainage
- /// Full protection from sun, rain, and wind thanks to optional built-in screens

BRUSTOR B128 Pergola Horizontal with retractable fabric roof

Minimalism at its best and a **horizontal** fabric roof – that's what puts the B128 Pergola Horizontal Patio Cover a cut above. This pergola's sophisticated design also allows easy mounting for **low-rise buildings, e.g. with low-pitch roofs or extensions**. The **shade** cloth roof provides the perfect shade, allowing you to make the most of those sunny days outdoors.

- /// No minimum pitch requirement
- /// Minimalist design
- /// Various personalisation options

BRUSTOR B160 XL louvered pergola

Make the most of outdoor living with a Brustor patio cover – whatever the weather. Brustor patio covers **create bonus outdoor space**, a place to blissfully unwind, hang out with friends and family, and make magical memories.

Looking for the perfect source of year-round outdoor recreation? Get that and more with the B160XL. This patio cover has a compact, elegant design due to the concealed screws and/or patio mounts. You choose the colour and size to perfectly tailor the B160XL to your home and garden.

- ▨ Stylish entry-level model
- ▨ Made-to-measure, down to the last cm
- ▨ Compact, elegant design

BRUSTOR B200 (XL) louvered pergola

The most complete louvered roof pergola

The Brustor B200 (XL) is an all-time favorite, and rightly so. It's the most versatile pergola in our range, where especially the extensive possibilities for personalization are appreciated. You can choose between louvers of 16 cm or 21 cm (XL version). When closed, the XL louvers will make the roof look more stylish. When opened, you will enjoy more sunlight. Open, closed, tilted, something in between – anything is possible! Have the weather under control and enjoy your louvered roof pergola.

- Extremely versatile patio cover with rotating louvers
- Integrated screens
- Numerous options possible

BRUSTOR B250 XL louvered pergola

Splashproof thanks to the perfect seal of the louvers to the gutters

Undoubtedly, the B250 XL is your favorite spot in the garden all year round. It either stands alone in the garden or is attached to the house. The B250 XL aluminium patio cover with louvers of 21 cm is a variant of the B200 XL. Thanks to the perfect seal of the louvers to the gutters, the roof is not only splashproof, but also windproof. If you choose the optional integrated ZIP screens and terrace heating, the patio cover is completely windproof and the pleasant radiant heat is also better retained. The screens can also be divided with a door pole to create an opening and a fast passage.

- ▣ Splashproof patio cover
- ▣ Wind resistance guaranteed
- ▣ Heat is better retained

BRUSTOR B300 pergola canopy

Comfortable outdoor living thanks to a pergola with retractable canopy

Outdoor living is all about creating a comfortable place, where you can fully unwind and enjoy the outdoor air. Let that be one of the assets of a pergola. The Brustor B300 is an outdoor living pergola that opens and closes. For the folding roof, you can choose from a range of durable fabrics, which are resistant to rain, wind, and dirt. The pergola can either be placed as a standalone in your garden or attached to your house, creating the perfect outdoor experience. The shade sail can easily be slid open or closed, allowing you to choose between maximum incidence of light or cooling shade.

- /// Pergola with retractable roof and sides
- /// No slope required
- /// Sunproof and rainproof construction

BRUSTOR B600 S pergola with retractable louvered roof

The ultimate Outdoor Living experience thanks to a pergola with sliding roof

The B600 S pergola with sliding roof has integrated ZIP screens, making the design even sleeker than before. In addition, the operation via the Brustor Connect App provides a great ease of use.

- ▄ Pergola with retractable louvered roof
- ▄ Once opened, the louvers take up only 13% of the total surface
- ▄ Control with the Brustor Connect App (optional)

BRUSTOR B700 Glass roof pergola

The B700 is Brustor's brand new innovative patio roof. The louvers have been replaced by a fixed roof made of glass or sandwich panels. This way, the patio roof opens new opportunities: it can be used to cover a jacuzzi or swimming pool, or as a stylish carport.

- ☒ Permanently dry patio area
- ☒ Optimal incidence of light
- ☒ Integrated ZIP screens

BRUSTOR B720 Glass and louvered roof pergola

The B720 is Brustor's brand new, innovative patio roof based on the B200 (XL). It offers a unique combination of a fixed and a louvered roof, expanding the possible uses of a patio cover. You can create a covered area to store your garden furniture or install an outdoor kitchen. Moreover, you can maximise natural light in your home thanks to the fixed glass section. These are just a few examples of the possibilities offered by the B720!

- ▨ Combination of fixed roof section and a louvered roof
- ▨ Combination of fixed roof section and a louvered roof
- ▨ Optional integrated screens

BRUSTOR B800 glass roof pergola

A sleek glass patio roof to maintain optimal incidence of light in the home

Are you looking for a modern cubist glass roof? Then you should definitely choose the B800 glass roof pergola! This glass roof is not only practical, but also - and above all - a treat for the eye. The combination of a cubist look and a robust structure creates a sleek whole, in which the glass panels are discreetly inclined to drain away rainwater. With this glass top pergola, you play with the seasons: you can opt for an upper or lower awning in summer or a patio heater in winter. With the B800, Brustor now has the most complete range of pergolas on the market.

- ▣ Cubist design
- ▣ Integrated ZIP screens
- ▣ Preservation of optimal incidence of light
